

## Minutes

Advisory Committee, Covid Park and Recreation

Date; April 8, 2021 4:00 P.M telephonic

Attending: Mike West, Henry Schwartz, John Wapner

Mike focused today on Day Camp. He reiterated that he wants to be ready for any Covid related issues early in general but specifically on Day Camp. We agreed that we need to get these procedures approved by the board way in advance of registration and early enough so we know where we are heading and can begin to hire early.

We reviewed specific procedures for arrival , pick-up, camp groups, equipment, covid positive test/symptom reaction plan, staff training. We also focused on electives including swimming lessons, children's gardens, bindlestiff family circus classes, art and nature classes. We reviewed each on raising specific ways they might be improved. We agree to continue to use time for Mike to have a sounding board for these detailed protocols. Keeping in mind how each could be practically implemented. We adjourned at 5:15
