All committee members have received an email invitation to the meeting. Others can call in and join. The meeting appears on the website. Any questions call me. Kevin and I will be at my house that evening. You can reach us at 518-392-3639 , 3360 or 518-610-1351

Agenda

Mike will lead off with a report on what is allowed and not allowed at the park and what is actually going on in terms of usage. Also he will review progress on the pavilion project.

I will update timetable to finish editing and then using the Revised Park Plan. We had been waiting until October until more data would be available about programming and funding issues from the comprehensive plan update. Covid has changed the timeframe for getting this helpful data but due to increased funding issues we need to consider using the plan this fall.

Make recommendations to CARP as to fund raising projects for this fall.

Sounds like we will have a good turnout, looking forward to getting going again! Thank you all for your patience and interest,
