

Park and Recreation Committee Agenda

January 21, 2020

6:15 P.M. Town Hall

Introduction and agenda

Attached is the latest draft of the Park Plan. Reviewing the plan one last time before it is sent to the board formally for review will be **topic 1** on the agenda.

Note: If changes are made at the rec committee meeting on Jan 21 those changes will be incorporated and then the committee will forward that updated version for the board to consider. My understanding at this point is that the board will have a public discussion at a workshop meeting as soon as possible. Hopefully, the outcome of the workshop meeting will be clear direction from the board to the committee in terms of how to proceed with our work.

Topic 2: Kevin will be discussing a new activity for Park Day which we hope will be conducted with PS 21 and add a very different activity to the day.

Topic 3: Mike will review current park and rec issues. Also, Mike needs to advise the board about rental fees for the new pavilion. He has asked for some feedback before he moves forward.

Hope to see you there. I need your final input about the plan. The more eyes and comments the better.

Thank you for your continuing commitment!

John Wapner

Co-Chair Park and Recreation Committee
