---

CALL TO ORDER

APPROVAL OF PAST MINUTES

GUEST SPEAKER/PRESENTATION

AGENDA/DISCUSSIONS

1. Both Matt Wood and Dean West of the Morris Memorial have stated that the project was only feasible for the Morris if they could 1: have control of the building and 2: Have a secure long-term commitment from the Town for providing administration and implementation of the Town's Recreation Program. Previous meetings have indicated that it was possible to find a way to meet the requirement of controlling the building. Information from the last meeting indicated that a referendum on a recreation fee was not legal. At our last meeting we agreed that Matt Wood and David Levow would call bond attorney's and inquire about the legal and funding issues surrounding long term bonding of a Town service. Both will quickly review their findings.
2. We will briefly discuss the implications of their findings and discuss ideas for a final feasibility document sent to each organization involved.
3. Meeting will be limited to these two agenda items.
